

WATER BASED LINE

PROTETTIVO TINTE FORTI

Colorless flat protective coating

CODE ...

DESCRIPTION AND USE

Interior, not yellowing, colorless flat water-based protective coating; designed for superficial protection of chalking wall surfaces (see strong hues or metal effect water-based paints). Its main features are: ease of application, slight change of the starting colour, perfect expansion; It substantially increases the cleanability level of high cleanable water-based paints (after 15 days from the last application).

Aspect of the dry film: flat

APPLICATION DATA

TECHNICAL DATA

COMPOSITION	Based on acrylic polymers modified in water dispersion, transparent pigments and special additives.
SPECIFIC GRAVITY	1.020 ± 0.020 Kg/L
FLASH PONT	Not flammable
SOLIDS BY VOLUME	22%
V.O.C.	
AVERAGE VISCOSITY	25 Sec. (Ford Cup no. 4 at 21 °C)
COLOURS	Colorless
PACKAGING	1000 ml – 4000 ml

WARNINGS

- Keep from freezing
- Shake well before and during use
- Clean the tools with water immediately after use
- Store in a cool, dry place away from sunlight

APPLICATION GUIDE

- Apply one brush or spray coat of product on water-based paints completely dry (wait at least 48 hours from the last application).
N.B.: the product must be applied in big quantity (see spread rate above) wetting down the surface to protect to optimize expansion and final protective result.
