- Keep from freezing
- Clean the tools with water after use
- Store in a dry place away from sunlight

**PRODUCT PREPARATION:**

Shake well to make the product more uniform; the product is ready to use; in case of high density, put it nearby heat sources or add small quantities of hot water so as to obtain a liquid product.

**APPLICATION:**

Apply with a synthetic sponge; after desiccation polish with a wool cloth.

**REMOVAL:**

If you wish to restore the previous decoration or cover with water-based paints, sand with 320 grit sandpaper until you obtain a matte surface.
