PAINT SYSTEM

• **New wood:** apply one or two coats of colour or colorless COTTAGE IMPREGNANTE; apply one coat of gloss or matte FILM. Wait at least 18 hours then lightly sand with 320 grit wet sandpaper; clean the surface with a damp sponge and let it dry. Apply a second coat of gloss or matte FILM. We suggest applying a third coat to improve its protective ability and the final aspect of the finish.

• **Painted wood:**

Open-pore finish: remove all loose paint; first sand with 120 grit wet sandpaper and subsequently with 320 grit wet sandpaper.
Clean with a damp sponge, let dry and follow New wood guidelines.

Closed-pore finish: in presence of adherent old paint, sand with grit 320 wet sandpaper, clean with a damp sponge and let dry. Apply two coats of gloss or matte FILM.
